

ABOUT US

At the ACBCC, our business is laser-focused on providing the tools our members need to make innovation and growth possible, regardless of the business environment.

We cultivate small-circle intimate connections between small businesses, corporations, and community organizations. Close relationships, individualized support, and mapping resources are what make us a valuable partner.

We are part of our members' teams and advocate for Black business at the local, state, and national levels. **We offer modern programming, benefits, resources, data, networks, and work and meeting spaces. We cultivate business opportunities and initiatives designed to help our members solve problems, collaborate, and build forward-moving strategy to reach KPIs and grow.** We also offer our premium leadership program, E.P.I.C. Plus, we invest time and resources in our community.

CONNECTION. GROWTH. INNOVATION.

FUTURE. COMMUNITY.

BECOME A MEMBER NOW

In changing times, the Alamo City Black Chamber of Commerce has shifted focus to move our members and community to their next best levels. **Our new initiatives are concentrated on our members' abilities to be disruptive instead of being disrupted.**

We help to meet goals toward securing an animal that even Texans struggle to wrangle--consistent growth.

CREATING CONNECTIONS

Our key ingredient to success is connections! Our diverse membership builds close knit ties, networks, and partnerships. New faces and names at ACBCC events soon become familiar. Our **Resource Groups** pair members with common interests to strengthen bonds, collaborate, ideate, reach goals, and expand businesses. Together we work in the community and grow support systems, bettering the quality of life and work locally.

FOCUSED ON FUTURE GROWTH

We make growth attainable. Whether its exploring Ai or other new technologies, navigating economic change and demographic shifts, or securing global opportunities, we stand ready to help. We provide data, programming, web events, intimate problem-solving sessions, and research. We also search for procurement opportunities, give grant info, host linking sessions, and map resources to fill needs.

BUILDING COMMUNITY

True to our founding in 1938, we are committed to our Black community, students, and businesses that support the development of our community. We prioritize our members' opportunities to mentor and interact with Black youth, tomorrow's leaders and workforce. We stay dedicated to advocacy for Black businesses and support peace, equity, social justice, education, arts, and health initiatives. We also organize volunteer events.

Forward to the next best level...
